There were 200 delegates, who participated around the globe with thought provoking Keynote Lectures, Oral Presentations and Poster Presentations. This was an excellent opportunity for the delegates from Universities and Research Institutes to interact with the World Renowned Scientists.

The importance of Homeopathy and Traditional Medicine has come into spotlight in the recent years. The main objective of Traditional Medicine and Homeopathy is to study, research and endeavor to cure diseases and to advance the teaching and practice of Homeopathy and Traditional Medicine.

The 2nd World Congress on Homeopathy & Traditional Medicine: zero molecule to macromolecules was planned to be an ideal rostrum for the renowned scientists, researchers, Professors and distinguished physicians from the field of High Dilution Pharmacology, ultra low doses, Pharmacognosy, Drug Delivery, Ethnobotany and related fields of science and Homeopathy, Ayurveda and Herbal medical therapeutics.

The theme of the conference was **zero molecule to macromolecules** which was a self explanatory in the fact that Homeopathy dilutions have no molecules of the original drug molecule used while preparing the medicine. On the other hand, all the herbal combinations use large doses, sometimes the raw parts of the plant in the powder form. Because of its successful use amongst the patients both Homeopathy and Traditional Medicine are being
