EVIDENCE BASES CURED CASES BY MEDICINE TRANSMISSION THROUGH HAIR- A CLINICAL STUDY

Running Title: Singh Dr. Ravi - Medicine
Transmission through Hair

Correspondence: dravilucknow@gmail.com

INTRODUCTION:

Case studies conducted by me on Homeopathic Medicine Transmission which is known as Sahani Effect as discovered by Dr. B.Sahni, Patna. My interest developed in this subject after coming in contact with Dr. B.Sahni and Dr. M.K.Sahani.

I studied and experienced in detailed and practiced eventually achieved with outstanding results.

This mode of treatment is useful for even distant patient as no physical presence of the patient is required. My purpose of presenting is to demonstrate the "evidence-based cases" treated by Medicine Transmission through varied cases during my clinical practice. These cases include common warts, tinea, acne, psoriasis, vitiligo to brain tumour, paralysis, CSF Rhinorrhea, Blepharospasm, Chyluria, Irritable bowel syndrome. All cases are duly recorded with, photos, video and lab investigations.

LITERARY REVIEW :

With literary review, I observed that this mode is within the preview of homoeopathy as Dr. Hahnemann has pointed about the dynamic mode of action of medicine in Foot note of Aphorism 11, of 6th edition of Organon of Medicine.

According to Albert Einstein Energy can neither be created nor destroyed but it can only be transformed in another form. Obviously, energy can be transmitted as a dynamic substance. Hahnemann has enlightened us about Dynamism in medicine and dynamic nature of the disease in foot note. He has given example magnet and iron piece in reference to possible modus operandi of "dynamic homoeopathic medicine" to "dynamic

disease". He quotes "Just as the energy of a magnet attracting a piece of iron or steel is not material, not mechanical.

One sees that the piece of iron is attracted by one pole of the magnet, but how it is done is not seen. This invisible energy of the magnet does not require mechanical (material) auxiliary means, hook or lever, to attract the iron". A similarity exists with other different distant therapy like MESMERISM, yet Dr. Sahni's method is specific as it proves to be the extended mode of drug administration as observed by Dr Hahnemann in Organon of Medicine.

MATERIAL AND METHODS-

Study has been conducted at my two clinics in Uttar Pradesh. All process of case study followed was classical case taking, analysis reportorial selection of medicine followed by administration of selected medicine through the hair taken out from the patient's body.

RESULTS AND CONCLUSION:

Different cases found remarkable improvement from mild to marked changes including a cure. Medicine transmission through hair is a great medical boon to humanity and found efficacious in almost every acute and chronic case, including so called surgical cases.

DISCUSSION

Medicine transmission through hair is just one step ahead of traditional oral, olfaction and tactual method of application of dynamic homoeopathic medicine. Hahnemann himself has experience about the dynamic nature of homoeopathic medication and he was experimenting on MESMERISM in later years of life which he has quoted in 6th Edition of Organon of Medicine. In the same line he has introduced a long foot note under Aphorism 11 of 6th Edition which indicates dynamic action of potentised remedy over dynamic disease. He has quoted many examples to his postulate.

Dr. B. Sahni has grasped the same idea and experimented about remote application of remedy with hair of the patients.

I have been working with this method exclusively at my clinic since 19 long years with wonderful results so are the different followers of this method.

ACKNOWLEDGMENTS

I have been introduced with this method by my late father Dr. N.P.Singh who was a well known homeopath of Eastern Uttar Pradesh. He worked with this method throughout his life.

I would also like to acknowledge Dr. Mridul Kumar Sahni for encouraging and solving my queries during my clinical practice.
